STACKING GOLD IN BANK VAULTS

More Than $6,000,000 Now in Safe at Richmond Institution.

TO REDISCOUNT SOON.

More Money in Sight Than Ever Gazed Upon Before by Most People in the Capital City.

Richmond, Nov. 18—At the close of business yesterday the Richmond Reserve Bank had received shipments of gold and gold certificates from the member banks of the Fifth Reserve District amounting to approximately $2,500,000. About $500,000 was received on Monday, making the total receipts since the opening of the bank, about $3,000,000. The money represents transfers of reserves required by the act. When all the reserve payments due this year are paid in, the local bank will have deposits of this character amounting to $8,000,000.

Discounting of commercial paper perhaps the chief single function of the reserve banks, will not begin for several days. Governor Geo. J. Seay of the Richmond Reserve Bank, said yesterday that the local institution will probably be ready to begin rediscounting next week. For the next few days the bank will be busy receiving the balance of the reserve payments due from the member banks. When these are all in the reserve bank will be properly equipped to discharge the many other functions assigned to it by the reserve act.

Visitors filed into the door of the new institution in an unbroken stream yesterday. They found a corps of assistant cashiers and tellers busily engaged with piles of yellow currency before them—a sight which went far in correcting the psychological depression which President Wilson noticed months ago in a now famous public statement.

In point of specie actually in the vaults the Richmond Reserve Bank stands in a class by itself among city banking institutions. Counting the capital stock and reserve payments and the $2,000,000 in new Federal reserve currency which has been placed in the custody of Federal Reserve Agent William Ingle, there is stored in the vaults of the unimposing building at 1109 East Main Street, gold and its equivalent amounting to approximately $6,000,000.

Few outside of a small group of hardened bankers in this city have ever seen $6,000,000 in specie at any one time. Even in $10 and $20 denominations a pile of currency of this size assumes cord-wood proportions. In a few months moreover the amount of specie on deposit in the Richmond Reserve Bank will be almost double that amount. There are those who predict that the bank will in the course of a few years have deposits aggregating $100,000,000, a sum of money which is quite beyond the imagination of ordinary folks and to be mentioned with safety only on the floor of the House of Commons and in the appropriation committees of Congress.

NEWS OF THE DAY

Three young women, walking arm in arm along the Long Island Railroad tracks near Laurel Hill on their way home from factory work after dark last night, were struck by a fast moving train, and two of them were instantly killed. The third was mortally injured. The whistling of a high wind in the cut through which they were walking is believed to have prevented them from hearing the roar of the train. Those killed were Millicent Branigan, 17 years old, and Fannie Bergstrom, 16, both of Brooklyn. The injured girl is Mabel Rankin, also of Brooklyn.

The Nieuwe Rotterdamsche Courant quotes a letter from a Galician priest stating that 40,000 Austrians have been buried in one day in a grave six and one-half feet wide and a little more than four miles long. The bodies, the letter says were laid next to each other in three layers. These men were killed, it is stated, during a battle lasting only a few hours.

William Bayard Blackwell, millionaire lawyer club member, and gentlemen farmer," of Morristown, N. J., where his estate, "Ravenwood," is one of the show places, has filed an action for $200,000 damages for alleged alienation of the affections of his wife the beautiful Beatrice V. Bogert Blackwell. He names as defendent John Mayer, Jr., grandson of Theodore A. Havemeyer, the former sugar magnate, nephew of H. O. Havemeyer, Jr., and of Mrs Frederick O. Beach, widow of Chas A. Havemeyer.

It was officially announced yesterday in Christiana, Norway, that the disarmament of the German cruiser Berlin, which has put in at Trondhjom a seaport of Norway, has been begun. The Berlin appeared off Trondhjom, which is on the northwestern coast of Norway and well outside of the North Sea, Monday. It was then reported that she was endeavoring to escape from the North Sea to act as a commerce raider in the Atlantic, very much as the cruiser Emden served in the Indian Ocean. The Berlin's commander was given the choice of putting to sea within 24 hours or of submitting to disarmament. He choose the latter apparently preferring to have his ship disarmed rather than risk going out to sea.

"Theodore Roosevelt private citizen." That is the latest role that the former President of the United States has adopted. He declared in New York yesterday that that is the only capacity in which he is going to appear until further notice. All attempts to get him to comment on the election or anything else were futile. Not even the rumor which has been transmitted about town by underground political wireless for the last few days that Progressive State Chairman Theodore Douglas Robinson nad County Chairman Francis W. Bird are going to resign and that both State and county headquarters are going to be given up could get a word out of him.

Germany will welcome any assistance by Americans in relieving the Belgians, according to an announcement by the Secretary of State, after a conference yesterday with Count von Bernstorff, the German Ambassador. Relief work for the Belgians will proceed entirely through private channels, according to the president. Relief work done officially it is understood, would not be regarded as a neutral act.

Whatever doubt existed that England is viewing this war in anything but a serious light has been dispelled by a series of developments of the utmost importance. In the House of Commons Premier Asquith stated that the British government had decided to declare the whole of the North Sea to be in the military area; to detain as prisoners of war all subjects of the enemy found on neutral vessels and to include in the category of contraband of war oil and copper. Chancellor of the Exchequer David Lloyd-George declared in the House of Commons that the country now has more than 2,000,000 men under arms and within a few months this vast army of power on land will be increased to 3,000,000.

REPORTED ATTACK ON U. S. LAUNCH

No News Received From U. S. Cruiser Tennessee Now in East.

RUMOR NOT CREDITED.

Officials of Navy Department Endeavoring to Get In Touch With The American Vessel.

Washington Nov. 18—Realizing the seriousness of the reported offense, officials both of the United States and Great Britain sought today to confirm press dispatches that a launch from the United States cruiser Tennessee had been fired upon by the forts of Smyrna.

The Navy Department has had no report recently from the Tennessee. It was stated that the last reports showed her off the island of Scio, adjacent to Smyrna, on November 12 and she was scheduled to sail for Vurla on November 14. The department later said that the Tennessee sailed for Vurla on that date, but as the ship has a more or less roving commission, there is no certainty that she is not in Smyrna harbor.

The admiralty of Great Britain today became exercised over the dispatch that shots had been fired at a launch from the Tennessee as the small craft attempted to enter the harbor. It is optimistically asserted that, if the incident occured, it was perhaps to warn the Tennessee of mines in the harbor, but there is no substantiation of this more assuring phase of the alleged offense.

Officials of the Navy Department are endeavoring today to get in touch with the Tennessee and advices from London are that every effort is being made by the British admiralty to ascertain the truth of reports coming by way of Paris.

TURKEY ON HER LAST LEGS.

If Germans Win, They Will be Dependency, Otherwise Turkey Will be Divided Among Allies.

New York, Nov. 18.—Nathan Hill, a construction engineer for the Standard Oil Company in Constantinople returned yesterday on the Atlantic transport liner Minnewaska. He left Turkey under German domination.

"The Turks admit they had no hope for the integrity of Turkey, no matter which side wins the war," said Mr. Hill. "They felt that with Germany a victor, Turkey would become a German dependency, and with the success of the allies Turkey would be cut up and divided between Russia, England and France.

"So they are dying with their boots on. Enver Pasha, who is regarded as the ruler of Turkey, is under the thumb of Geneeral Leman von Sanders, a German who has command of the Turkish army in addition to a force of 8,000 Germans. Djavit Bey and Tallatt Bey, ministers of the interior and finance, are doing the bidding of Germany.

"For the last two months the German cruisers Goeben and Breslau have been busy carrying supplies shipped by Austria through Roumania to the Bosphorus. They have carried aeroplanes, mines, torpedoes, powder and several submarines."

CALS ON IRISH TO ENLIST.

Either That or Goodby to Home Rule, Says William O'Brien.

London, Nov. 18.—"We have got either to bid goodby to home rule or help England honestly in this war," said William O'Brien, member of the House of Commons from Cork and leader of the Independent Nationalists in writing a reply to constituents who had protested against the suggestion of conscription.

Irishmen, he said, were being cruelly led astray, and their attitude toward the government was "inexplicable." This, he continued, was furnishing to certain English politicians their only excuse for deserting the cause of home rule.

CLEAN UP IN WASHINGTON

Crusade Against Organized Vice is Being Made.

A wholesale "clean-up" of organized vice in the District of Columbia was begun today under the Kenyon "red-light" law. Ten weeks' investigation by the "vice squad" of the police department has revealed a vice combination in Washington rivaling the notorious underworld system of New York.

District Attorney Laskey—just two weeks' in office—will start the "clean up" by filing a suit in equity to close up as a "nuisance" the Ardmore Hotel, in "Soubrette Row" Thirteenth street, just below F. street northwest. Suits against certain hotels will follow in rapid succession.

By closing certain hotels, Laskey expects to completely wipe out the systematized vice which has been shown to exist by the activity of the "vice squad" since August 22 in raiding eleven hotels and sixteen so-called rooming houses, in which sixty eight men and sixty-eight women were arrested on grave charges.

MILITARY SITUATION

German Efforts at Flanders Seems to have Been Broken.

Bordeaux, via Paris, Nov. 18—The bulletin of the armies of the republic thus sums the military situation

"The second great battle in Flanders seems to be drawing to a close At the present date, November 17 after a fierce struggle lasting seven days, the German efforts appear to be broken.

"It has been as with the preceding attempts a massacre of dense columns of infantry, led to the assault by newly appointed officers whose bravery does not compensate for inexperience

"In the presence of such results it may be affirmed that the superior instruction and preparation of which the German infantry gave proof a the beginning of hostilities—qualities which greatly contributed to their successes in the month of August—have disappeared, and that today, a far as direction of fighting, fire control, and maintenance of contract between infantry and artillery are concerned, superiority has passed to our side.

DEADLY BELGIAN AUTO

German Lieutenant Describes Working Of Modern Adjunct to War.

A lieutenant of Uhlans who was in the conflict near Louvain in September writes:

A Belgian armored automobile, the terror of our troops, had come roaring through our advance battalion at a mad pace; before our men knew what was happening. Then the automobile reached our main body and could no more turn back, so it began to let its murderous machine play upon us. We should all have been lost but for a fortunate shot striking the chauffeur in the head whereupon the automobile dashed into two ammunition wagons and then toppled over into the ditch at the side of the road. The officer commanding it and two of his men were killed and two others badly wounded.

"I examined the automobile immediately. It was double-armored with a layer of asbestos between the two plates. It had been struck by showers of our infantry bullets, but none of these had penetrated the second plate. The inmates would have been perfectly safe but for the fact that one of our riflemen firing from an elevation, hit the chaffeur in the forehead. Thank God, we had captured one of these dangerous things! They are a frightful terror to all our patrolling parties, and have a most demoralizing effect upon them because these automobiles can only be knocked out by artillery, which can never get in its work in time. We had only two killed and several severly wounded in this encounter, but we were saved from great losses only by accident."

BUY VIRGINIA HORSES FOR WAR

French and British Representatives Are Actively at Work.

THOUSANDS ARE SOLD.

Richmond Union Stock Yards Kept Busy Furnishing Equines—Will be Shipped From Newport News.

Richmond, Nov. 18—Richmond has become one of the greatest horse markets in the country.

Thousands of Virginia and Western horses are being bought for war purposes at the Union Stock Yards here and will be shipped by way of Newport News to France and England.

Two French officers are busily engaged in inspecting horses as they arrive and some reports have it that at least 3,000 horses have been bought the last week or two.

These horses, it is stated, must be not under four or more than ten years old. They will be used for mounts for cavalry and for hauling the artillery. The great demand for horses will doubtless cause a general advance in prices.

W. P. Taylor, traffic manager of the Richmond, Fredericksburg and Potomac Railroad Company yesterday afternoon states that he has been approached in regards to securing the necessary number of cars to take care of such a shipment.

From Mr. Taylor and one or two Chesapeake and Ohio officials it was learned that the shipment would probably be consigned to Newport News, although this fact could not be absolutely established.

It has been stated that fully three thousand horses have been contracted for here, while purchases are being made at many other points in the State.

ELOPER WITH PISTOL.

Had Threatened to Kill Married Woman if She Refused to Run Away With Him.

New York, Nov. 18.—The warm temperament of Ernesto Bonevita 21 years old, landed him in West Side Police Court yesterday on a charge of carrying a loaded revolver and threatening the life of Mrs. Rose Demarco, of 629 Eleventh avenue. He was held in $2500 bail for trial, and if convicted, may be sent to prison for a term ranging from one year to seven years.

The fact that the woman is married and has a daughter seven years old, did not deter Bonevita from falling in love with her.

She did not take his protestations of affection seriously until Sunday night, when in the absence of her husband, he invaded her room, pointed a revolver at her head and threatened to kill her if she did not agree to elope with him. She agreed to meet him at 7 o'clock Monday night at 126th avenue and run away with him from her husband and child.

Mrs. Demarco kept the appointment and Detectives Barron and Culane were close at hand. Bonevita appeared rushed at Mrs. Demarco, threw his arms around her and kissed her—and then the detectives threw their arms around him. A loaded .38 calibre revolver was found in his pocket.

STEAMER DIRIGO FOUNDERS.

Ship Goes Down in a Gale off Alaska. But Crew Were Saved.

Seattle, Wash., Nov. 18.—The steamer Dirigo, owned by the Alaska Steamship Company, foundered Monday night in a heavy gale off Cape Spencer, Alaska, while being towed to Seattle by the passenger steamship Cordova, of the same line. The Dirigo's crew of 12 men were saved by the Cordova.

The Dirigo had become unmanageable in the gale and had been taken in tow by the Cordova. She was a wooden steamer of 850 tons and valued at $125,000.

CENSURES OFFICERS.

Sent Out in Storm of Bullets While Officers Kept Under Cover.

The following remarks taken from the diary of a German soldier are published in Paris and London papers, not because there is reason to believe they are justified with regard to the conduct of German officers, but because of their interest as a human document. Under date of November this German soldier wrote; 'Previous to noon we were sent out in a regular storm of bullets on the order of the major. These gentlemen, the officers send their men forward in a most ridiculous way. They themselves remain far behind, safely under cover. Our leadership is really scandalous. Enormous losses on our side are partly from the fire of our own people for our leaders neither know where the enemy lies nor where our own troops are, so that we often are fired on by our own men. It is a marvel to me that we have got on as far as we have.

"In the trenches shells and shrapnel burst without ceasing. In the evening we get a cup of rice and one third of an apple per man. Let up hope peace will soon come. Such a war is really too awful. The English shoot like mad. If no reinforcements come up, especially heavy artillery, we shall have a poor lookout and must retire.

"The first day I went quietly in to the fight with an indifference which astonished me. Today, for the first time, in advancing, when my comrades on the right and left were falling. I felt rather nervous. But I lost that feeling again soon. One becomes horribly indifferent.

"I picked up a piece of bread by chance. Thank God! At least I have something to eat."

Rescue Worker a Suicide.

Los Angeles, Nov. 18.—Herbert W. Lewis, head of the Children's Home Aid Society of California, committed siuicde in a park yesterday by taking poison.

Lewis was arrested yesterday on complaint of a 15 year old girl in his charge. He was to have appeared in court today on a habeas corpus proceedings. He was 55 years old, a man of family and of more than State wide prominence in the work of rescuing waifs and reclaiming wayward girls. He had protested his incence of the offense charged against him.

TROOP TRAIN IS STRUCK BY SHELLS

Allies' Ships Cause Fearful Havoc Among the Occupants.

MANY MEN ARE KILLED

Bombardment of Coast Resumed—Towns of Zeesbrugge and Knocke Are Badly Damaged By Shots.

London, Nov. 18—Terrible toll was taken by the guns of a portion of the allied fleet off Belgium when a German troop train rushing re-enforcements to the battle line was struck by shells from the warships, wrecked, set on fire, and destroyed.

Reports of the work of the fleet which has again been able to get into action with the lifting of fogs, reached here today in dispatches from Belgium. Monday they were able to resume their bombardment of the coast.

The portion of the fleet in action bombarded the coast towns of Zeebrugge and Knocke, held by the Germans. Buildings were badly damaged by the shell fire.

The German train was destroyed running along the coast.

KAISER HAS HIS WAY.

Austrian Emperor Removes Eleven Division Generals on His Demand

Geneva, Switzerland, Nov. 18.—Persons arriving here from Innsbruck, capital of Tyrol, Austria, say that the report that Emperor William is now dictator of the Austro-German ramy is generally believed. The Emperor's first demand, they say, was the resignation of the Austrian heir apparent and 11 Austrian division generals whose work against the Russian forces in Galicia was regarded as unsatisfactory. Emperor Francis Joseph, according to these same advices, has agreed to the removal of the division generals, but is holding out against the retirement of the heir apparent.

Passing of the command of the Austrian army to the Germans has created a decided impression among Austrian officers, some of whom, it is reported, may resign.

SEGREGATION CASE.

Joe Williams Assessed $100 for Not Carrying Out Order to Move.

Richmond, Nov. 18.—Joseph Williams, colored, was fined $100 in Police Court yesterday on the charge of violatingg the segregation ordinance. An appeal was noted to the Hustings Court.

Williams was first in Police Court October 24th on this charge and was given a week in which to move from his residence at 626 North Fourth Street.

As he had failed to carry out the court's order, Justice Griggs said that there was nothing to do but fine him.

BEER TAKES A MAN'S MIND.

Remembers Only His Name After Drinking 100 Glasses a Day.

Cincinnati, Nov. 18.—His mind a blank, as the result, it is said, of drinking 100 beers daily, is the condition in which John Wnerster, a driver of a brewery wagon, finds himself today. Over indulgence in beer is held responsible for his condition. The man's plight was brought to the attention of the public in an announcement to the effect that at Monday night's meeting of the Academy of Medicine, Dr. Robert Ingram exhibited Wnerster, who is a patient at the Cincinnati Hospital.

Wnerster remembers his name but his mind is blank, as far as his present activities are concerned, the physician says.

Price of Turkeys Will, It Is Said Be Lower on Account of the War In Europe.

Tomorrow a week will be Thanksgiving Day, and already many carloads of turkeys are en-route to the larger cities. It is thought price of the fowl this year will be slightly lower than the prices asked last year and the reason like many other things is the war. According to those who know in time of peace the transatlantic steamers use thousands of the American birds on their trips back and forth in the fall of the year. For the last two months there has been very little ocean travel and as a consequence the steamship companies have not been making their usual purchases. This has left the farmers of the country with more fowl than they usually have at this season and as a result the price of turkeys has taken a tumble.

Another thing which will tend to bring the price of turkeys down is the fact that hundreds of persons who usually have turkey on Thanksgiving Day are out of work and as a consequence will content themselves with chicken or beef instead.

There are great quantities of turkey on cold storage from last year. These birds while a year old, are said to be more plump than this seasons fowls owing to the fact that the summer of a year ago was one in which the fowl attained large size.

MONDAY NIGHT'S GALE

Some Damage to Small Crafts, But No Serious Mishaps From Old Boreas.

Most of the masters of vessels engaged in traffic on the river were prepared for the sudden change in the weather last Monday night. They anticipated shifting winds and most of the craft had been made snug in consequence. In a few cases sails were rent by the heavy blasts and several vessels dragged anchor and were blown ashore.

While the wind was at its height the steamer Northland of the Norfolk and Washington Steamboat Company, arrived off this port on her way to Norfolk. She made a landing after considerable difficulty and after having broken four new hawsers. She was finally turned and headed up the river before she could be made fast.

The steamer Newport News arrived up from Norfolk about on time yesterday morning. Her officers reported rough conditions in the bay and river.

The steamer Talbot, which left Baltimore Monday evening for Cambridge, Md., was blown ashore during the night. The steamer became unmanageable by reason of the high winds in the upper bay.

Captains of steamers which arrived at Norfolk yesterday report having had thrilling experiences off the capes Monday night. In some cases the seas swept over steamers, coming as high as the bridges. Some steamers were compelled to lay to, it being impossible to face the winds.

ALLEGED ATTACK ON U. S. LAUNCH.

The report printed in the newspapers this morning to the effect that a launch belonging to the United States cruiser Tennessee had been fired on by the Turks at Smyrna has not been confirmed, and the excitement caused, by the reported incident is on the wane. The Navy Department has been unable to get in touch with the Tennessee, which, by the way, is not believed to be at Smyrna at present.

The Tennessee, like ships of other neutral nations, is now up the Mediterranean in the vicinity of the war zone to protect American citizens should aid be needed, and in the event of an exodus from any city affording refuge to such as have claims upon the United States.

It is generally believed in diplomatic circles that no insult was intended by the Turkish government even if the launch had been warned by a shot to keep out of the harbor of Smyrna, which doubtless is mined by this time.. No doubt the matter will be a satisfactorily settled when handled by the proper parties.

There are some jingoes in the United States who are always ready to urge drastic measures by the government upon every and all occasions. Conservative people, fortunately, are in the majority and they will withhold judgment until President Wilson handles this incident in the same careful manner he has disposed of others since he has been in the White House.

PRESIDENT WILSON IS OPTIMISTIC.

"A future clear and bright, with promise of the best things," is the way President Wilson sums up his view of the business prospect in a letter to Secretary McAdoo, of the Treasury Department, congraulating him upon the opening of the new Federal Reserve Bank system.

"Fundamental wrongs once righted, as they may now easily and quickly be," writes the President, "all differences will clear away. We are all in the same boat, though apparently we had forgotten it. We now know the port for which we are bound. We have, and shall have more and more as our new understandings ripen, a common discipline of patriotic purpose. We shall advance and advance together, with a new spirit, a new enthusiasm, a new cordiality of spirited co-operation. It is an inspiring prospect."

Mr. Wilson referred to the new tariff law, the new currency law, the new trade commission law, and the labor provisions of the new antitrust law as the means through which "the [illegible] has everywhere been laid bare, [illegible] of which monopoly slowly to be eradicated."

He added that "undoubtedly the means by which credit has been set free is at the heart of all these things; is the key-piece of the whole structure."

Referring to the "opportuness" of the currency law, the President said, "The war which has involved the whole of the heart of Europe has made it necessary that the United States should mobilize its resources in the most effective way possible."

He spoke of the difficulty in marketing the cotton crop of the country, and added that "no doubt in the light of new understanding the problems of the railroads will also be met and dealt with in a spirit of candor and justice."

The disgruntled republican party ever since the present democratic administration took charge of the government has endeavored to make it appear that prosperity and democratic rule are impossible.

The observations of the President are affirmed by the great mass of the American people.

MYSTERY OF THE SEA.

Torso of Woman Washed Ashore on New Jersey Coast.

Seabright, N. J., Nov. 18.—The nude trunk of a woman was washed ashore late Monday afternoon at Navesink Beach. The torso evidently had been in the water at least a month. It is supposed that the limbs and head became separated from the rest of the body while it was in the water, as it did not appear that they had been amputated with a knife. Coroner Yard ordered the torso removed to an undertaking establishment at Belford. He said that as far as he knew no woman is missing from this vicinity and he thinks the body belong in or near New York.

Coroner Fay, of Red Bank, believes that the body is that of a woman who disappeared from South Amboy some weeks ago.

The body was found on the beach There was no clothing on it to give a clew to identity. It had been in the water so long that identification was not possible. The body is swollen, but whether bruises found on it were due to dashing against piling or were caused by blows before death the Coroner is unable to tell.

There is no doubt in the minds of the police here but that the woman was murdered.

From all indications the woman was not more than 30 or 35 years old, and was well built.

ALLEGED BRUTALITY.

Mayor And His Eight Children Shot in Belgium by Germans.

New York, Nov. 18.—The Rev. Henry Hyvernat, professor of languages at the Catholic University in Washington, arrived yesterday on board the new Cunard liner Transylvania.

The priest was born in France and still is a citizen of that country. In London he met Mrs. George Theilman whose husband was mayor of Aershot, in Belgium, when the Germans arrived there.

As mayor, she said her husband treated the German general in command and the officers with every courtesy; that he gave a banquet to the general and his staff, at which wine flowed freely until 11:30 o'clock at night when all retired; that shortly after 1 o'clock in the morning he was awakened by a noise in his wife's room; that he and his son hurried into the room and found Mrs. Thielman struggling with the drunken general; that the son who had a razor with him, sprang at the general and cut the commander's throat.

Next morning, he continued, the mayor and his eight children were stood up against a wall outside the house and shot and the mother was turned over to the soldiers. She finally made her escape and reached England where she is very ill.

"Mrs. Thielman herself told me that story," declared the priest. "I knew her and her husband for years and I believe her. And here is not the only case. There are thousands of women who have worse stories to tell."

BODY IN A BARREL

Foreigner Victim of a Vendetta in New York.

New York, Nov 18—An atrocious murder was revealed last night when a woman saw a one-horse truck stop at the curb opposite Rainey Park, in Long Island City, while two men lifted a sugar barrel off and deposited it on the sidewalk. The fact that they left it there, unguarded, and went away hastily caused the woman to investigate.

Approaching the barrel, which was near a bright arc light, the woman's curiosity prompted her to turn back the heavy paper covering. The light revealed the top of a man's head and the sole of his upturned feet. She screamed and Policeman Close ran out of Rainey Park and found her in a faint at the side of the barrel.

One glance into the barrel showed Close that a man's body had been stuffed into it, that the man first had been bent double at his hips so that the legs extended upward alongside of the torso and the feet were opposite the head.

The policeman placed his hand on the top of the head and found that it still was warm. He blew his whistle and wrapped his nightstick for aid.

Other policemen came and the woman was revived. She told what she had seen, and in the excitement following she disappeared.

The police announced as their belief that it was a foreigner, probably an Italian, and that he may have been the victim of a vendetta.

UPPER LAKES TIED UP

Wind and Snow Have Practically Stopped All Traffic.

Sault Ste. Marie, Mich., Nov. 18—Wind and snow have practically stopped temporarily, all traffic on the upper lakes. Since yesterday afternoon no steamers have passed the Soo, a record snowfall has been reported and the wind is blowing 50 miles an hour. It is estimated that 40 vessels are in shelter between the Soo and White fish Point, in Lake Superior.

From advice received from downbound boats, it is thought none of the freighters, which passed up since Friday, have ventured beyond Whitefish Point, and for this reason no alarm is felt for the steamers already reported overdue.

FRIGHTFUL SACRIFICE OF LIFE

London, Nov. 18—Accounts of the fighting in Belgium, official and otherwise, dwell upon the frightful hardships which the men in the water-soaked trenches are called upon to endure, and the great loss of life. Regarding this latter phase, official reports have little to say, and although private accounts of the extent of the slaughter must be accepted with reserve, it is evident that both the Germans and their foe have suffered greatly.

One such report comes from a British correspondent who estimates the German casualties in the last four days at 100,000.

If similar reports from the east are to be credited, the slaughter in that territory is no less terrible.

EMDEN'S GALLANT CAPTAIN

Presented a Ship He Had Captured to the Skipper's Wife.

London Nov. 18—Another tribute to the gallantry of Captain von Muller, of the German cruiser Emden, which was badly battered recently by the Australian cruiser Sydney and forced to run aground on Cocos Island, in the Indian Ocean, is contained in a letter received by a Glasgow woman from her son, who is a member of the crew of the steamer Kabinga, which was captured by the Emden ni the bay of Bengal. The letter says:

"The Emden captured the Kabinga in the Bay of Bengal but when Captain von Muller learned that our skipper's wife and children were aboard he presented the ship to the lady remarking to the skipper:

"'You can inform your owners that, as far as they are concerned, the Kabinga has been seized and sunk.'"
